DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 18 - 33, drawn to a material suitable for use in the manufacture of a shoe stiffener.

Group II, claims 34 - 36, drawn to a method of making a material.

2. The inventions listed as Groups II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 34 is either obvious over or anticipated by US 3,973,284 A. Accordingly, the special technical feature linking the two inventions, a material for a shoe stiffener, does not provide a contribution over the prior art and no single general inventive concept exists. Therefore, the restriction is appropriate.

3. A telephone call was made to Laurie Butler Lawrence on April 22, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1772

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
